## OTS Facility Update

March 19, 2020

Due to the evolving news and ever-changing updates with the coronavirus (COVID-19) situation, we take our responsibility very seriously to protect our employees, instructors and students and therefore will be rescheduling all training classes until at least after April 12, 2020.

If you are currently registered for a training class during this time, please call our office at 630-655-3900 to reschedule to a future date. Training certification expiration dates are being extended by the following departments:

**Wisconsin DHS:** Training certificates from 1/1/20 – 6/29/20 will be extended to 6/30/2020.

**Indiana Department of Environmental Management:** Issuing licenses normally without current training certificate, however must take a course within 90 days of issuance and submit training certificate.

**Illinois Department of Public Health:** No formal extension released, verbal confirmation that they are working on a procedure to extend expirations.

Our OTS supply division will continue to be in full operation, we ask that when picking up your order, please remain in your vehicle and call 630-655-3900 and ask for Don or the warehouse.

We understand the impact this may and want you to know how much we appreciate your patience and understanding but feel at this time it is the best decision to protect our community.

Thank you,

OTS Management
